

Our curriculum is carefully designed by our highly experienced preschool staff. Each classroom teacher plans units of study that are developmentally appropriated and unfold from the children's natural interest in the world around them. Biblical concepts are taught on a daily basis through Bible stories, songs, prayer and example. Our pre-K classroom uses the *Handwriting Without Tears* emergent writing curriculum. Our pre-K teacher's main goal is to prepare children for a positive kindergarten experience, with a focus on following directions, establishing good work habits and laying the foundation for reading, writing and math.
